

## Deferred Payment Financing Scheme

Syscap is the UK's leading independent IT finance provider. Our specialist solutions are designed to meet the unique requirements of today's Education sector. We help you access the technology you need, when you need it, helping you to be more efficient and improve student care.

### HOW DOES IT WORK?

#### Confirm the assets required

With a payment over time model at the heart of your finances, simply identify the solution to meet your current needs with your chosen supplier(s).

#### Confirm the re-payment start date

Simply provide Syscap with a preferred repayment start date and we will create a facility that matches available budget and allows re-payments to start in the next financial year.

#### Fully managed invoice payouts

All invoices are handled directly by Syscap ensuring suppliers are paid on time for delivered goods and services.

#### Further investments

Whatever the future asset requirement, Syscap will work with you to optimise investment capability through a managed facility upgrade programme.

In order to meet the ever increasing demands of parents, students and ongoing ICT development, investment is often needed when budget is simply not available, never more so now that ring-fenced funding for ICT has ended. Syscap can help.

#### FAQS:

##### How flexible is the first repayment date?

Syscap provides the flexibility for you to not start making repayments until your next financial year for equipment you could have installed today.

##### What if new assets are needed now?

Syscap's Deferred Payment Solution enables you to invest in the ICT or other assets needed now, take delivery through your chosen supplier but hold off the first repayment to until an agreed future date.

##### How are suppliers paid?

Syscap will handle all the supplier invoices and ensure payment is made in a timely manner for all delivered goods and services. This process maintains excellent supplier relationships and lowers the overheads to manage processes within your establishment.

#### What assets do Syscap finance?

Here are some of the assets we have helped finance:

- Learning Platforms, including e-learning
- Interactive whiteboards
- Furniture and fittings
- Sports and playground facilities
- Full ICT infrastructure

#### Why Syscap?

By working with Syscap, you can benefit from our extensive knowledge in the Public Sector. We have over 15 years' experience in implementing innovative financing solutions that have genuinely helped transform how schools, colleges and universities perform.

#### What do I do next?

The Education sector is ever-changing. Syscap can give you the flexible approach that is essential to continue to deliver outstanding student care, in the most cost effective way.
