

Facility Financing Scheme

In order to attract new students it is vital that educational establishments keep up to date with the ever changing face of ICT. Procurement of new technology although essential is often pushed to one side, because of the need to balance budgets.

HOW DOES IT WORK?

ICT project is identified

Identify the ICT to fulfil current project requirements. Syscap approves an amount to cover the initial project costs along with a contingency amount for a period of 3 months.

Place orders with your supplier(s)

Simply place orders with your chosen supplier(s) and Syscap will ensure that invoices are paid immediately up to the agreed facility limit.

Optimise investment

The contingency amount will allow you to invest further should the project require it – such as additional laptops or unforeseen training.

First rental deferred

Syscap are able to defer the first rental for the customers, until either the end of the facility period or the start of the new financial year.

Market leading solutions

Syscap has over 17 years' experience working with vendors and institutions within the Education market

Syscap are now able to offer their unique Facility Financing Scheme to help Educational establishments ensure investment can be made when it is needed most, whilst allowing students to benefit today.

FAQS:

How much can the facility be for?

Simply put, as much or as little as you like. We can set up the facility from as little as £10,000 to over £1m depending on your needs.

When do re-payments have to start?

The first rental can be paid at the start of the Facility or can be deferred until the end of the Facility Period. Syscap can even defer the first payment until the start of your next financial year. It is a truly flexible arrangement, helping deal with the unknown, both in terms of overall spend and managing payments to suit your requirements.

What happens if the full facility value is not used?

Syscap works with the both you and your suppliers in advance to set the facility amount against a known ICT/asset acquisition project and then adds an agreed contingency amount to deal with any unforeseen requirements.

If the contingency is not used, the rentals will simply be adjusted at the end of the three month period to reflect the actual amount of Facility used.

What do I do next?

The Education sector is ever-changing. Syscap can give you the flexible approach that is essential to continue to deliver outstanding student care, in the most cost effective way.
